

**TOWN FARM STATEMENT BY THE BOARD OF SELECTMEN  
ACTING AS TRUSTEES OF THE GOVERNOR STOUGHTON  
FUND**

The Board of Selectmen, at its March 18, 2010 meeting of the Trustees of the Governor Stoughton Fund, voted unanimously to release the entire report of the Governor Stoughton Land Trust Exploratory Committee including the appraisal information on the land. This report is included on this website for public edification.

The long-term tenants of the most deteriorated property at the Town Farm have found alternate affordable housing, thereby allowing the Trustees to secure the building and eliminate any safety and liability issues.

The Trustees are grateful for the independent fund raising efforts that have resulted in donations to the Milton Resident's Fund. These donations have helped to compensate for the loss of rental income received from the aforementioned property, which in the past have helped with the Resident's Fund mission to assist with fuel assistance and housing costs for needy Milton residents.

The Trustees wish to thank members of the Advisory Committee for their dedication and service to the Town.
