

**AIRPLANE NOISE ADVISORY COMMITTEE CHARGE**  
(Appointed by the Board of Selectmen)

The Airplane Noise Advisory Committee shall work to reduce the amount of air traffic over the Town of Milton and its impact on residents' health and quality of life.

To achieve this goal, the Committee will:

- Seek solutions that will minimize or alleviate the hazards of noise, air pollution and the low elevation of aircraft flying over the Town;
- Work in collaboration with the Logan Airport Community Advisory Committee, Inc., Massport and the Federal Aviation Administration;
- Work with the Town's representatives at the federal and state levels of government;
- Educate residents about the Committee's efforts and the potential health risks of airplane noise and pollution in general; and
- Report its progress to the Board of Selectmen at least twice per year.
