

# Town of Milton Community Electricity Aggregation Program

## Program Overview

The Town of Milton is launching Community Electricity Aggregation (CEA), an electricity supply program leveraging collective buying power of thousands of Milton residents and businesses for competitive electricity rates over many years (future savings cannot be guaranteed); expanding access to renewable energy and reducing fossil fuel use; and providing a responsible alternative to door-to-door and telemarketer offers. The delivery of electricity and billing for all electricity charges will still remain the responsibility of Eversource, so customers will continue to receive only one bill from the utility.

The CEA program was approved by Town Meeting in 2018, and recently received approval from the Massachusetts Department of Public Utilities. The Program is set to launch in September 2021.

A virtual community meeting will be held on **Tuesday, June 29 at 6 p.m.** to explain the Program and associated benefits (link on the Town calendar [TownofMilton.org](http://TownofMilton.org) or program website [MiltonCEA.com](http://MiltonCEA.com)).  
**Find the most updated information on the program website, [MiltonCEA.com](http://MiltonCEA.com).**

## Eligibility

Any electricity customer who is receiving Eversource Basic Service supply can participate in the program: it doesn't matter whether you are a renter or owner, a resident, a non-profit or a business owner. **There is no obligation** to participate and you may leave the Program with **no penalty** at any time.

## Participation

Take a look at your Eversource bill - if Eversource is listed as the Supplier, you are eligible for automatic enrollment in Milton CEA. Those eligible for automatic enrollment will receive a postcard in early June and a Customer Notification Letter about the Program near the middle of June. The Customer Notification Letter will explain the program benefits, options, and for those who do not wish to participate, how to opt out before the Program begins. Those who do not opt out will be enrolled as of the September 2021 meter read.

Amount Due on 11/30/19	\$129.57
Last Payment Received 11/25/19	-\$129.57
Balance Forward	\$0.00
Current Charges or Credits	
Electricity Supply Services	\$80.30
Delivery Services	\$86.40
Total Current Charges	\$125.73
Total Amount Due	\$129.73

Total Charges for Electricity		
Supplier (Eversource)		
<del>Electricity Supply Charge</del>	000 kWh X 0.10060	\$80.30
Subtotal Supply Services		\$80.30
Delivery		
Customer Charge		\$8.00
Distribution Charge	000 kWh X 0.04286	\$25.72
Transmission Charge	000 kWh X 0.00145	-\$0.87
Transmission Charge	000 kWh X 0.02121	\$12.73
Res. Assist. Adj. Charge	000 kWh X 0.00774	\$4.64

Already have a different electricity supplier? You may join the Program voluntarily at any time, although it is advised that you check your contract with your supplier - they may charge a penalty or fee to leave early.

# Milton CEA Electricity Products

The Program offers three products. Customers eligible for automatic enrollment will be enrolled in the **Milton Green** product. Customers may choose one of the optional products offered by Milton CEA at any time.

Milton CEA Product	September 2021 - November 2024	Renewable Energy Content
<b>Milton Green</b> (standard product)	\$0.10848/kWh	+10% renewable electricity provided by purchasing and retiring MA Class I Renewable Energy Certificates (RECs)
<b>Milton Green 100</b> (optional)	\$0.14133/kWh	+100% renewable electricity  MA Class I RECs equal to one hundred percent (100%) of a customer's electricity consumption, in addition to the minimum amount of RECs required by the Commonwealth
<b>Milton Basic</b> (optional)	\$0.10483/kWh	Meets minimum renewable energy requirements 18% MA Class I RECs in 2021
<b>Applicability</b>	Residential, Commercial and Industrial customers	RECs are the accepted legal instrument used to track renewable energy generation and to substantiate claims of renewable energy use.

**Future savings against Eversource's fixed Basic Service rate cannot be guaranteed** because Eversource's rates change every six months for residential and commercial customers and every three months for industrial customers.
