Milton Night Out in mid August. Officer Corbin,MPD will coordinate activities.

Health Dept and Environmental Department members unable to be present at this meeting.

Open Discussion:

Chris Grazioso, a long time LEPC member from Fallon Amb, is now a trainer with Mass DOT – DRONE utilization department. We consider him a valuable resource if needed.

MFD will integrate with the existing PAMET software utilized by the MPD, with the addition of PAMET software called Fireserver. The MPD already has both Policeserver and Cadserver which are PAMET modules. Police dispatch will create emergency incidents in Cadserver that will generate an incident in either Policeserver, Fireserver, or both depending on the type of incident.

The fire department will create non-emergency incidents through Fireserver.

Toughbook computers are in the process of being purchased for MFD.

Best of luck to Chris and Bryan.
