**Sign up for Smart911!!!** It gives emergency officials information about you and your family members in the event of an emergency. It is free and registration can be done at [www.smart911.com](http://www.smart911.com)

### **Things to Consider:**

#### **Do's:**

- Do stay Calm
- Do be patient
- Do think before you act
- Do know the location of the nearest fire alarm box and how to use it
- Do listen to radio or TV for updates
- Do develop a Family Disaster and Communication Plan
- Do make plans for: food, water, basic first aid and emergency supplies, warmth and any special items (such as medicines) you might need either to evacuate or shelter in-place. Shelter-in-place means staying where you are either for short or long periods of time.

#### **Don'ts:**

- Don't panic
- Don't hinder emergency services by sight-seeing to problem areas
- Don't tie up phone lines unnecessarily
- Don't touch ANY downed wires
- Don't ignore evacuation orders; if evacuated, don't return home until authorities say it's safe
- Don't ignore Shelter-in-Place orders
- Don't use charcoal or propane for indoor cooking
